Single Family on 0.00 Acres

Steinhauer, Edmonton, AB

Backing onto peaceful green space, this beautifully cared-for home has been cherished by its owners for 20 years—and they wouldn't be letting it go if not relocating to BC to be closer to loved ones. Thoughtfully upgraded for energy efficiency, they even enclosed the entryway to create a bright solarium that helps retain heat. The home features a private side entrance to a fully finished, modern basement—perfect for extended family or added flexibility. With newly installed solar panels (2024), utility bills are minimal year-round. The brand-new heat pump provides warmth down to -15°C before the furnace engages, cutting down gas costs significantly. Nearly \$170K in upgrades include: solar & electrical panels, furnace & heat pump (2024), HWT (2023), Roof (2017), Living room floor (2025), foyer/solarium (2022), kitchen & appliances (2018), Basement reno & fence (2013), newer windows, and fresh paint. Ideally located near Century Park LRT, South Common, and Southgate, with easy access to Downtown and the airport.

Built in 1976
